

Weill Cornell Medicine

PROVIDING WORLD-CLASS CARE WITH  **NewYork-Presbyterian**

The Department of Urology and the Sandra and Edward Meyer Cancer Center

Present

Free Prostate Cancer Screening Blood Test & Family History

Prostate-specific antigen (PSA) Testing

For anyone assigned as male at birth, aged 45 to 75, with average risk of prostate cancer, and those aged 40 to 75 with a higher risk (such as those of Black or African-American ancestry with a strong family history of prostate cancer), who have never been diagnosed with prostate cancer.

Thursday, October 2nd
9:00 a.m. - 3:00 p.m.

NewYork-Presbyterian/
Weill Cornell Medical Center
Harkness Courtyard
E. 69th St. & York Ave.,
New York, NY 10021

The importance of screening

- Prostate cancer is the most common cancer among those assigned male at birth in the United States
- Family history, age, and ethnicity can affect your risk

Register by visiting bit.ly/WCMPSA2025 or scanning the QR code.

Walk-ins are also welcome.
